

## **Thank You – Parry Family Charitable Trust!**

Trustees, Staff, Volunteers and most importantly children of Blooming Blossoms Trust would like to thank the Trustees of The Parry Family Charitable Trust for their kind support in the last three years.

The relationship between Blooming Blossoms and The Parry Family Charitable Trust began in December 2016 when the charity kindly funded a 'Grab Bar' for our OT Room. This kind donation was followed by a second donation of £482 towards a Defibrillator in January 2018. Thankfully we have never had to use this device, but it is certainly reassuring for our parent body and staff that the device is available on hand, if the need arises.

In September of this year, we were thrilled when the Parry Family CT chose to say a resounding 'YES' to our application for garden equipment to be used after sessions and during our 'Sunday-Funday' open sessions. The grant of £815.80 was spent on five different kits including an obstacle course kit, primary orienteering kit, physical development kit. These equipment are being used several times a week, providing hours of fun, laughter and improved skills. Our kids were just jumping with joy when the order arrived and still squeal with delight every time we use them. **Thank You!**

***'The new kits are so much fun' Dave B.***

***'Our family doesn't have a garden. Now that we can play with the new toys at the Happy Haven after school I don't mind it so much.'* Joseph C.**

***Our Occupational Therapist notes, 'when a child is working hard and is at the end of their patience, I can motivate to push themselves a little longer and then they can go and play with the new equipment. It usually works.'***
